Object moved to here Is there a fix for installing Silverlight with Mac High Sierra? I used freestockcharts.. After this date, however, Silverlight will be in an unsupported state and will not receive any future quality or security updates.. Microsoft will continue to ship updates to the Silverlight 5 Developer Runtime for supported browser versions given that their extensibility model supports plug-ins; this includes updates for security vulnerabilities as determined by the Microsoft Security Response Center (MSRC).. This thread is locked You can follow the question or vote as helpful, but you cannot reply to this thread.. com and all previous Silverlight updates worked fine This one (5 1) of Silverlight won't work.
